

*Shut down your engine, not your life.*

No-idle laws don't have to cramp your lifestyle. OPTIMA® batteries, with patented Spiralcell® Technology, are still going strong long after traditional batteries have died. That's because they have twice the life, not to mention 15X the vibration resistance and a spill-proof case. Even after extended accessory use, you'll still have plenty of power to keep things going. Look for its colored top and six-pack shape at your local Optima dealer.
